

Coastal Creations Website Review

Ben, I am very excited. I am loving what I am seeing!

Main layout I loved was Design #4

The Header Font is definitely my favorite.

My idea is to have a rectangle blurb something like below on my page (preferably solid background color)

Either where Coastal Creations would be or in another section.

I definitely wanna have pictures of people creating in the studio, but since it isn't up and running I don't have any, so maybe I will add that section once I am established.
